Page 783. In Figure 1B, the disulfide connectivity (shown by solid yellow lines) is drawn incorrectly. It should be “Cys16–Cys 33 and Cys20–Cys35” instead of “Cys16–35 and Cys20–33”.

Additionally, the label A15K_A23K CTX should be changed to K15A_K23A CTX in Figure 3A and in the text on Page 783, Right column, Part “Serum Stability of Cyclized and Linear CTX”, Line 9.
