

ADDITIONS AND CORRECTIONS

2004, Volume 108B

Dragos Ciuparu,* Yuan Chen, Sangyun Lim, Gary L. Haller, and Lisa Pfefferle: Uniform Diameter Single Walled Carbon Nanotubes Catalytically Grown in Cobalt-Incorporated MCM-41

Page 505. The TEM image in the inset of Figure 3 was recorded for the C16 catalyst and not for C12 as stated in the paper. Therefore, the caption of Figure 3 should read:

UV–visible and NIR spectra recorded for unpurified SWNT samples grown in C12 and C16 templates with hydrogen prereduction. TEM inset shows the uniformity of the SWNTs grown in the C16 template.

Also, the first sentence of the second paragraph on page 505 should read:

Figure 3 shows the UV–vis and near-IR spectra for the nanotubes grown in hydrogen prereduced C12 and C16 catalysts, along with a TEM image showing the diameter uniformity of the SWNTs grown in the hydrogen prereduced C16 template.

Moti Lal,* Martin Plummer, Nicola J. Richmond, and William Smith: Solvation of Metal Nanoparticles in a Subcritical — Supercritical Fluid: A Computer Simulation Study

Page 6054. In our original manuscript, eq 6 is incorrect (printing error). The correct equation reads

$$U_M = U_0[\{1 - \exp(-k_M(r - r_0))\}^2 - 1]$$
