

ADDITIONS AND CORRECTIONS

1996, Volume 100

G. F. Musso,* R. Narizzano, P. Piaggio, G. Dellepiane, and A. Borghesi: Theoretical Vibrational Spectra of Neutral and Doped Poly(*p*-phenylene Sulfide) Oligomers

Page 16226. There is a trivial error in Figure 9. Both level diagrams relative to the trimer radical cation show a wrong electron occupancy of the two upper levels. In fact, the highest level should be singly occupied and not unoccupied, and the next highest level should be doubly occupied and not singly occupied.

The discussion and the conclusions are not affected.
