

## ADDITIONS AND CORRECTIONS

---

1997, Volume 101B

**L. V. Zhigilei, P. B. S. Kodali, and B. J. Garrison\*:**  
Molecular Dynamics Model for Laser Ablation and Desorption  
of Organic Solids

Page 2035. The data in Figure 7 is for 266 nm rather than 337 nm laser excitation. The 337 nm data is given in the article "On the Threshold Behavior in the Laser Ablation of Organic Solids" by the same authors in *Chem. Phys. Lett.* **1997**, 276, 269–73. The data and conclusions for the two wavelengths are physically indistinguishable. At this time we do not want to attach any significance to the lack of wavelength dependence.
