

Correction to “Generation and Recombination Kinetics of Optical Excitations in Poly(3-dodecylthienylenevinylene) with Controlled Regioregularity”

Evan Lafalce, Xiaomei Jiang,* and Cheng Zhang

J. Phys. Chem. B 115 (45), 13139–13148. DOI: 10.1021/jp2066666

Corrected Acknowledgment

■ ACKNOWLEDGMENTS

The authors thank Dr. S.-S. Sun at Norfolk State University for supplying some of the materials used in this study. The XRD measurements were performed at the Nanotechnology Research and Education Center (NREC) at University of South Florida, and in particular Robert Tufts has been helpful in providing access and support. Financial support to Lafalce and Jiang has been provided by New Energy Technology, Inc. C.Z. is grateful to the support of AFOSR via grant FA9550-10-1-0555. The authors also thank Prof. Z. V. Vardeny for helpful comments and discussions.
