

Correction to "Regulation of the Electric Charge in Phosphatidic Acid Domains"

Wenjie Wang, Nathaniel A. Anderson, Alex Travesset, and David Vaknin*

J. Phys. Chem. B 116 (24), 7213–7220. DOI: 10.1021/jp303840a

In Figure 4a, for fractions of calcium ions per DHDP molecule, there was a circle symbol without an error bar misplaced within the three reported data points corresponding to three pH values, i.e., pH 3.4, 5.8, and 7.8. This straying circle symbol is removed and the corrected Figure 4 can be seen below.
