Lionel Dubois, Sandra Parrès, J. Gaspard Huber, Patrick Berthault, and Herve Desvaux*: Dynamics of Xenon inside Hydrophobic Cavities As Probed by NMR Relaxation of Dissolved Laser-Polarized Xenon

Page 767. Equation 4 was reproduced incorrectly. The correct equation appears below, with f' the ratio of complex concentration to the host total concentration. The Authors apologize for any misunderstanding that may have risen as a result of this error.

$$K = \frac{f}{(1-f)(1-f')} \frac{1}{[\text{host}]} \tag{4}$$
