There is a typographical mistake in eq 34 in the original published work. The correct form of eq 34 should read:

$$V_{\mu\nu}^{xc,\sigma} = \frac{\partial E_{xc}}{\partial P_{\mu\nu}^{\sigma}} = \sum_i \int \frac{\partial f_{xc}}{\partial g_i} \frac{\partial g_i}{\partial P_{\mu\nu}^{\sigma}} \, d\mathbf{r} \tag{34}$$
